Anti-EGF Rabbit Polyclonal Antibody

Catalog #: 51821

Aliases

Pro-epidermal growth factor; EGF

Background

Gene Name: EGF

NCBI Gene Entry: 1950 UniProt Entry: P01133

Application Information

Molecular Weight: Predicted, 133 kDa; observed, 97,56 kDa

Clonality: Rabbit polyclonal antibody

Species Reactivity: Human, mouse, rat, dog, pig

Applications Tested: Western blotting (WB), immunohistochemistry (IHC)

Immunogen

A synthesized peptide derived from human EGF

Isotype

Rabbit IgG

Storage Buffer

Supplied in PBS (pH 7.3) containing 30% glycerol, and 0.01% sodium azide.

Storage

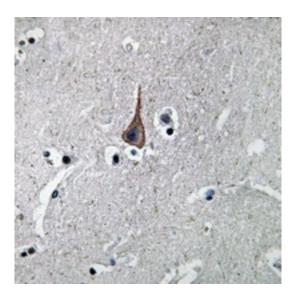

Store at -20 °C for one year.

Recommended Dilutions

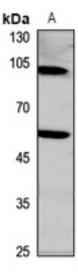

Western Blotting (WB): 1:500-1:1,000 Immunohistochemistry (IHC): 1:50-1:100

Note: This product is for research use only.

Validation Data

Immunohistochemical analysis of EGF staining in human brain formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

Western blotting analysis of EGF expression in rat kidney (A) whole cell lysates.
