

Human NCS1 Knockdown Cell Line (WB-Validated)

Catalog #: C62262

Aliases

NCS1; Neuronal Calcium Sensor 1; NCS-1; FREQ; Frequenin-Like Ubiquitous Protein¹ [1] ; Frequenin-Like Protein¹ [1] ; Frequenin Homolog; FLUP; Frequenin (Drosophila) Homolog; Frequenin Homolog (Drosophila)

Background

Gene Name: NCS1

NCBI Gene Entry: [23413](#)

Storage

Store at liquid nitrogen for 1 year.

Kit Components

1. Human NCS1 Knockdown Cell Line (Wb-Validated)
2. Wild-type cell line

Parental Cell Line

Human cell line supplied by the client

Validation Methods

RT-qPCR, Western blotting (WB)

Shipping

Shipped on Dry Ice.

Instructions For Use

This knockdown cell line should be paired with wild-type cell line for use.

Note: This product is for research use only.

RT-qPCR analysis. HeLa cells were infected with NCS1-specific shRNA lentiviral particles, total RNA was extracted from wild-type and knockdown cells, RT-qPCR was performed using gene-specific primers. $\Delta Ct (Ct_{KD} - Ct_{WT})$ was used to calculate mRNA reduction (%) between wild-type and knockdown cells using the following formula: $(1 - 1/2^{\Delta Ct}) \times 100\%$.

Western blotting analysis. NCS1 protein expression in wild-type (WT) and shRNA knockdown (KD) HeLa cells was detected using Western blotting. Hsp90 α served as a loading control. The blots were incubated with primary antibodies against NCS1 and Hsp90 α , respectively, followed by incubating with HRP-conjugated goat anti-rabbit secondary antibody. Images were developed using FeQ™ ECL Substrate Kit.
