

Anti-Phospho-PKC beta (S661) Rabbit Polyclonal Antibody

Catalog #: U0678

Aliases

PKCB; PRKCB1; Protein kinase C beta type; PKC-B; PKC-beta

Background

Gene Name: PRKCB

NCBI Gene Entry: [5579](#)

UniProt Entry: [P05771](#)

Application Information

Molecular Weight: Predicted, 76 kDa; observed, 80 kDa

Clonality: Rabbit polyclonal antibody

Species Reactivity: Human, mouse, rat, bovine, monkey, pig, rabbit

Applications Tested: Western blotting (WB), immunohistochemistry (IHC)

Immunogen

A synthesized peptide derived from human Phospho-PKC beta (S661)

Isotype

Rabbit IgG

Storage Buffer

Supplied in PBS (pH 7.3) containing 30% glycerol, and 0.01% sodium azide.

Storage

Store at -20 °C for one year.

Recommended Dilutions

Western Blotting (WB): 1:500-1:1,000

Immunohistochemistry (IHC): 1:100-1:200

Note: This product is for research use only.

Immunohistochemical analysis of PKC beta (Phospho-S661) staining in human breast cancer formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

Western blotting analysis of PKC beta (Phospho-S661) expression in mouse brain (A) whole cell lysates.
